Re: Urgent Request for Staffing

Urgent Request for staffing (PCA, LPN, RN) to provide patient care in an Adult Residential Care Facility (ARF) in Atholville as a result of Covid-19 outbreak.

We have been asked to determine if anyone (RN, LPN, PCA) is interested in committing to a ~30 day period to work in this affected ARF. If you are interested and can be released from your current work area, please provide your manager with your name and contact details so that you can be easily reached to discuss further details. At this point we are aware that lodging, expenses, salary, 2 weeks post return paid isolation will be provided, more details may be forthcoming.

Appreciate your serious consideration of this request so that we can help support these patients that require care.

Sincerely,
Brenda
