Re: **Health Care Workers to Continue to Follow Red Phase IPC Guidance**

As communicated in [Special Bulletin - COVID-19 - Horizon hospitals and health care facilities to maintain visitor restrictions during return to Orange alert level on Monday](#) on Nov. 1, 2021 Horizon returned to its Orange alert level protocols.

This Orange alert level refers to Horizon's COVID-19 Operational Plan and hospital capacity.

Although we are operating at an Orange level capacity, **health care workers are required to continue following all ID-IPC COVID-19 Red Phase guidance and standard operating procedures.**

Red phase IPC guidance documents can be found on the [IPC COVID-19 Resources Skyline page](#).
