**Re:** Health Care Worker Scenario Guideline Update

## Health Care Worker (HCW) Scenario Guideline Update

Please be advised that the **HCW scenario guidelines have been updated** to reflect the most recent scientific research related to the amount of time required to remain out of the workplace and testing parameters for COVID-19.

Additionally, we have published two **new** documents as a supplement to our HCW scenario guidelines.

1. [Summary of HCW Scenario Guidelines](#): contains guidance from all three strategy levels in one document for easy reference
2. [Frequently Asked Questions](#): contains questions and answers relevant to action you are required to take as a HCW for COVID-19

The updated guidelines and the two new documents (Summary of HCW Scenario Guidelines and Frequently Asked Questions) can be found on the [Employee Health COVID-19 Resource Page](#) on Skyline.

Thank you for your continued diligence with COVID-19 protocols. We appreciate your commitment to the safety of our workplace.
